

## ASSEMBLY REPORT

“Hard work and self-belief will always earn success.”

Hard work helps us to discover many new things and we gain new experiences. Through experience, we learn to think smartly and solve critical problems. There is no shortcut to success as it is rightly said that 'Hard work is the only key to success'.

Students of Class VIII B presented an assembly on the topic 'I learnt the value of hard work by working hard' on 1st April 2022 in the school auditorium. The assembly started with a prayer to seek blessings of almighty. Then, the students recited a self-composed poem and also sang a self-composed song emphasizing the importance of hard work.

Two inspirational videos were shown to the students of Class VIII followed by ATL (Atal Tinkering Lab) orientation session. Session was organised to make the students aware of the program and to encourage them to participate, enthusiastically, to showcase their innovative ideas and skills.
