

REPORT – CLASS X ASSEMBLY

On 11th April 2022, the Director Principal, Ms. Aditi Misra, addressed the students of Class X, in the school auditorium. She conveyed some important points regarding the preparation for the Mid Term Examination.

She emphasised the importance of submitting the assignments, in time. It was also mentioned that the students must desist from using social media which would distract them from focusing on their actual studies. Although, in the past two years, during the Covid pandemic, the main medium of instruction was online mode. Now, as we have transited to the offline mode, the students must concentrate on the subjects taught in their classes.

Class X students showed keen interest in volunteering for teaching students of Shiksha Kendra. The Director Principal encouraged them to take these benevolent steps. This would add to their value- points while preparing their letter of recommendations, while applying for admission in foreign universities. The children were asked to discuss with their parents which streams they should choose in class XI. Ma'am explained to the students that our school offers flexibility of subjects across the three streams, but in the core subjects students must be consistent in their performance throughout class X.

The session concluded with the announcement that a trip to Tree House Resort, Chail, will be organised for those students who had opted for it in the session 2019-20. This trip would be conducted towards the end of May 2022. Those students who have volunteered for this trip would be given separate exam dates, for the subjects missed out during the period of that excursion.
