

# **CBSE –CAPACITY BUILDING PROGRAMME IN ARTIFICIAL INTELLIGENCE**

**Topic: Bootcamp - 1 for Teachers Teaching Artificial Intelligence in Class XI & XII**

**Organised by: CBSE in Collaboration with IBM**

**Date/Time: 23rd, 24th & 25th of February 2023, 3:00pm -6:00pm**

**Resource Person: Mr. Debasish Mohant**

**Attended By : Ms. Jyoti Khurana , Ms. Ruchi Baweja**

The primary objective of the Bootcamp was to provide a comprehensive overview of the projects to be made by students of class XI and XII studying Artificial Intelligence.

## **Day 1 -Facilitation of ChatBot:**

The Bootcamp began with an introduction to the expectations and objectives of the program, which was followed by an overview of the AI curriculum. This session aimed to familiarize teachers with the different options available to make projects in AI. Discussions were done on the problems that were being faced by students while working on projects. Introduction to ChatBot was done .A demo was given on how to create ChatBot using Google Dialogflow, integration with Thinkable app was also introduced.

## **Day 2-Ideation & Chat bot Development**

The next day session started with the queries that were taken by the resource person from previous day. Followed by discussion on different ideas for creation of ChatBot for real world problem. Hands on practice was given to create ChatBot using Googleflow, followed by demo on integration of Thinkable app and dialog flow code & link

## **Day 3-Project Showcase**

Participants shared their ideas for creation of ChatBot in real world .Projects were showcased on ChatBot and suggestions were also given on improvement of projects.
