

REPORT -ASSEMBLY ON EARTH DAY

A special assembly was conducted on Friday, 22nd April 2022 in Middle School to mark the 52nd anniversary of Earth Day.

Students were informed and apprised about the history and importance of the Earth day. Thought provoking quotes and messages were conveyed to children to inform how small steps taken by each individual can contribute to protecting our Mother Earth.

Earth Day isn't just about one day, one activist or one organisation. As citizens of the world, it is every person's responsibility to nurture and preserve the bountiful gifts of nature, its resources, the environment and the atmosphere. It involves celebrating the home planet and taking steps towards caring and tending to its needs and well-being. The assembly concluded with the students taking a pledge to work towards the betterment of Mother Earth, making it a better place to live in for generations to come.
