

Workshop on the role of AI in promoting Creativity and Innovation in the classroom

Organised by : India Didactics Association.

Date, Time : 23rd May 2023, 4:00pm -5:00pm

Resource Person: Ms. Annapoorni

Attendees : Ritu Arora & Ruchi Baweja

The aim of the workshop was to familiarise the teachers with Canva. The following were the learning outcomes of the workshop:

- **Explore generative AI tools** that could help Teachers Design Learning Resources effectively.
 - **Magic Write**, the content generation tool is powered by OpenAI where you go from idea to your first draft in seconds. Teachers were shown how lesson plans could be made.
 - **Magic Design** is an AI-powered design generation tool that lets you input any media, and transforms it into customized templates that match the content and context you need.

Teachers were asked to do hands on, on Canva ,and were made aware with the Magic tools of the software where AI was helping in creating lesson plans and creating presentations on any given topic.

It was an interesting and enriching experience.
