

‘Mathematics is the biggest motivation because it starts from zero and goes up to infinity.’

Delhi Public School Sector 45, Gurgaon, celebrated National Mathematics Day on the 22nd December 2022 to commemorate the birth centenary of the famous mathematician Srinivasa Ramanujan. The event was organised to give the students an insight into the great mathematician’s life and work.

The students of classes VI and VII watched a short documentary on Ramanujan. Some students enacted a role play based on his life. They actively participated in various activities including the solving of Ramanujan Magic squares.

A special assembly was organised for Classes VIII and IX. The assembly focused on making students realize that Mathematics is not just about formulae and theorems; it can be found in various art forms like music and dance. The assembly commenced with a prayer. This was followed by a dance presentation which was a tribute to the Mathematician Aryabhata. A peek into the life of Srinivasa Ramanujan made through a role play by the students of class IX, showcased the role of mathematics in everyday life.

The students learned about Srinivasa Ramanujan, who, despite not having any formal training, has done a lot of work in the field of Mathematics. Both mathematics and singing require unique skill sets that can be achieved through hard work and practice. Budding mathematician of the school fascinated the audience with a rap song based on mathematics

The assembly culminated with the Award Ceremony, where the Dean, Student Welfare, Ms Sapna Dhawan, felicitated the winners of the Inter-school competition and participants of Mathematics ‘22.
