BAGLESS DAY ACTIVITY
CLASS VII

'The mind stretched by a new experience can never go back to its old dimensions.'

As per the provisions of the National Education Policy 2020, efforts are being made to help the students not only to carry a lighter bag but also to go without it. Accordingly, the first 'Bagless Day' along with vocational training was conducted for the students of classes VI and VII on Monday, 6th June 2022.

The day began with an inspiring movie, 'Dancing Girl of Mohenjo-daro', followed by a group discussion. To facilitate the collaborative efforts and enhance the research skills among students, a jewellery designing activity was conducted wherein a PPT was shared, for students to explore the various folk and tribal art forms of India to design and create their jewellery. Keeping interdisciplinary approach in mind, they learnt about the composition of diverse gold alloys used in making jewellery items as well as the procedure to calculate the purity of gold.

Students composed acrostic poems, designed a logo on the 5 R's (reduce, reuse, recycle, refuse, repurpose) and created jewellery by using different shapes and folk-art designs. They creatively designed brochures to highlight their work and enthusiastically displayed their masterpieces through a fashion show in the class. It was an amazing day where students surprised everyone with their innovative ideas and creativity. It is rightly said, 'Every piece of jewellery tells a story.'
