

## Report on Bagless Day Classes IV & V

**‘Play is our brain’s favourite way of learning.’**

A bagless day was organised for classes IV and V on 13th May, 2023. Bagless day aims to retain freshness in learning and is an attempt to provide a different module of learning for better performance.

The day began with sports activities which made the students energetic and excited for the entire day. They also enjoyed a street play performed by the students of grades IV and V which made them aware of the importance of water. The students got an opportunity to show gratitude towards their parents by making a beautiful craft and decorated it by using buttons of various sizes. To beat the heat, students made refreshing summer drinks and relished them with their friends. To stimulate the students imagination, a cartoon-making session was conducted by Mr. Ajit Narayan, a professional cartoonist. He shared some basic tricks and techniques for drawing cartoons and motivated students to hold on to their originality. Bagless day turned out to be a huge success among the students.
