

**INTERACT CLUB – APRIL ACTIVITY**  
**EARTH DAY CELEBRATION AT SHIKSHA KENDRA**  
**DATE:11.04.2025**

The members of the Interact Club of DPS Gurgaon conducted a series of engaging, hands-on activities to celebrate Earth Day with the middle and senior students of Shiksha Kendra on Friday, 11th April, 2025. The activities aimed at spreading awareness and fostering responsibility towards the environment.

The celebrations began with Class VI students imagining themselves as eco-superheroes. Through storytelling and illustration, they shared how they would use their powers to solve pressing environmental issues—making the abstract idea of sustainability personal and relatable.

Bringing art and environment together, Class VII students participated in a leaf rubbing and painting activity. As they traced delicate patterns onto paper, they discovered the uniqueness of each leaf, learning that even the smallest elements of nature deserve attention and care.

Turning theory into practice, Class VIII students embraced the role of young gardeners. They exchanged seeds and planted spinach, tomatoes, and chilies in small containers—learning firsthand about food sources, self-sufficiency, and the joys of growing something green.

Young adults of classes IX and X dived into real-world problem-solving. Working in groups, they proposed creative and practical solutions to modern-day environmental issues. From promoting reusable bags to advocating rainwater harvesting, their ideas reflected awareness, empathy, and innovation. Thoughtfully made posters on water pollution added a visual dimension to their advocacy.

The event was a meaningful initiative led by students, for students, creating lasting impact by encouraging eco-consciousness, creativity, and collaborative learning across grades, advocating for a greener tomorrow.
