

Report on Bagless Day in School

Creativity is intelligence having fun!

Bagless Day 4.0 for Classes VI- VIII was conducted on 28th September 2024 on the theme – Tradition in bloom: A festival of festivities.

Students upcycled discarded materials into unique bookmarks, developing innovative thinking and environmental responsibility. They explored the cultural history of the world's oldest festivals through a video. They then wrote about the traditions, symbols, and values of a festival of their choice, developing a deeper appreciation for cultural diversity and global heritage. Students participated in a quiz exploring India's diverse festivals, traditions, and customs, promoting cultural awareness and understanding. Class VI students showcased their imagination by creating keychains inscribed with significant life values, reflecting their understanding of principles like kindness, honesty, and responsibility. Class VII students took an eco-friendly approach by designing beautiful cards with messages and a promise to save plants for future generations. Class VIII students crafted colourful bracelets for plants, symbolizing a lasting commitment to the environment, with the heartfelt promise to always protect and nurture nature. These activities helped in enhancing their fine motor skills, fostering their creativity and imagination and boosted their cognitive development by increasing their concentration span. The students were enthusiastic and fully engaged in the creative activities, showcasing their excitement throughout the process.

Bagless Day 4.0 successfully integrated creative, cultural, and critical thinking activities, aligning with CBSE's vision for 21st-century learning.
