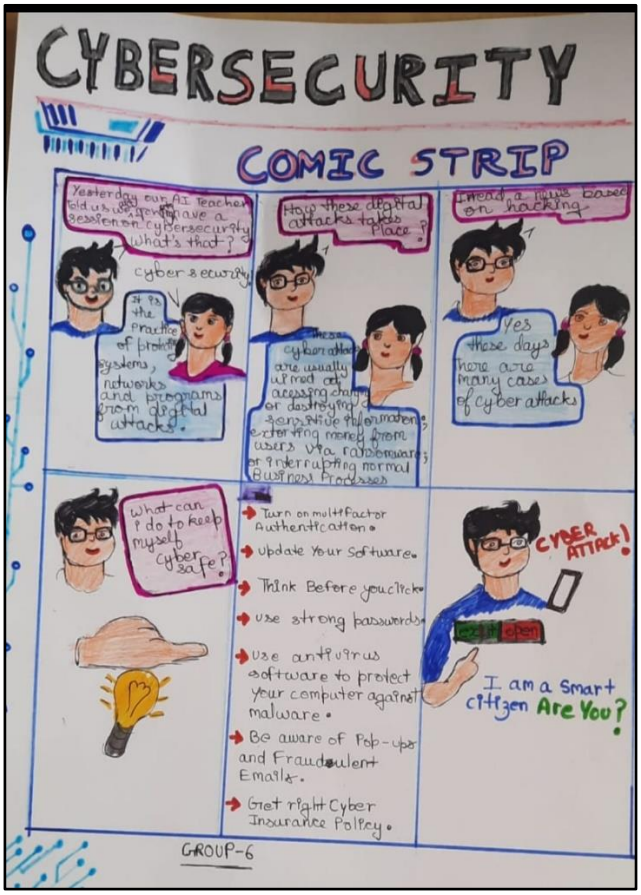
Report on Bagless Day Activity to create Cyber Safety (Middle School)

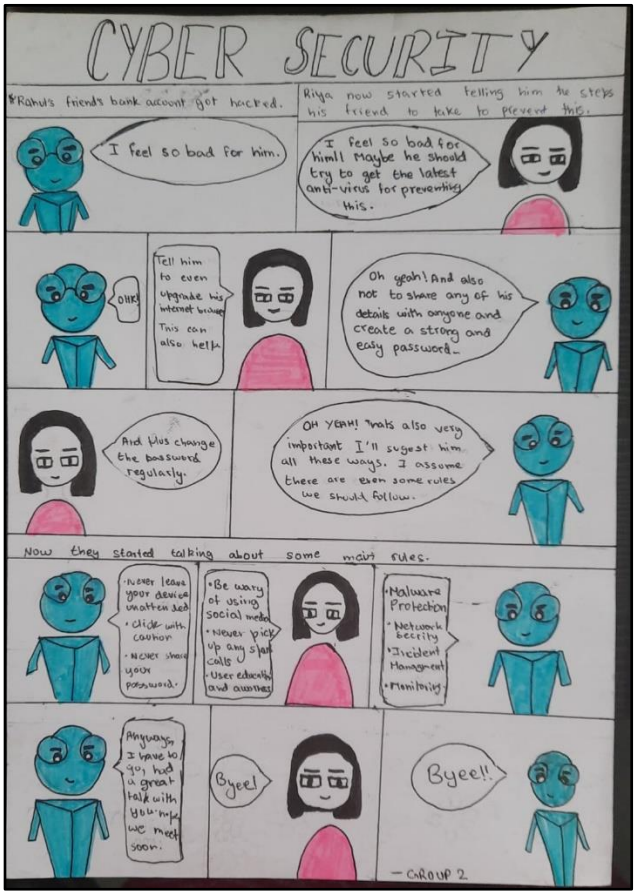
From mobile to connected home devices, technology is deeply intertwined with our lives. And while the evolution of technology accelerates, it is our duty to highlight some of the emerging challenges that exist in the world of cybersecurity today and provide straightforward actionable guidance that anyone can follow to create a safe and secure digital world for themselves and their loved ones.

As part of the celebration of Cyber Safety Awareness month (October), a special activity for the students of Classes VI- VIII was conducted to create awareness about Cyber Safety on 14th Oct ,2023. Students enjoyed working in groups to create a Comic strip providing information on how to stay safe online. Students used A4 sheet and colours to draw colourful cartoons and write interesting dialogues to depict the problems related to cyber safety and provide solutions in an easy, fun loving comic strip way.

With the help of this activity children were made to understand that Cybersecurity doesn't always have to be scary. It can be easy to adopt secure habits and even provide you some peace of mind that your online life is safe.



CYBERSECURITY
COMIC STRIP
Yesterday our AI teacher told us we'll have a session on Cybersecurity
What's that?
cyber security
the practice of protecting systems, networks and programs from digital attacks.
How these digital attacks takes Place?
these cyber attacks are usually aimed at accessing changing or destroying sensitive information, extorting money from users via ransomware or interrupting normal Business Processes
I read a news based on hacking
Yes these days there are many cases of cyber attacks
What can I do to keep myself cyber safe?
Turn on multi Factor Authentication.
Update Your Software.
Think Before you Click.
use strong passwords.
Use antivirus software to protect your computer against malware.
Be aware of Pop-ups and Fraudulent Emails.
Get right Cyber Insurance Policy.
CYBER ATTACK!
I am a Smart citizen Are You?
GROUP-6



CYBER SECURITY
Rahul's friends bank account got hacked.
Riya now started telling him the steps his friend to take to prevent this.
I feel so bad for him.
I feel so bad for him! Maybe he should try to get the latest anti-virus for preventing this.
OHH!
Tell him to even upgrade his internet browser This can also help.
Oh yeah! And also not to share any of his details with anyone and create a strong and easy password.
And plus change the password regularly.
OH YEAH! That's also very important I'll sugest him all these ways. I assume there are even some rules we should follow.
Now they started talking about some main rules.
•Never leave your device unattended
• Click with caution
• Never share your password.
•Be wary of using social media
• Never pick up any spam calls
• User educate and awareness
•Malware Protection
• Network security
•Incident Management
• Monitoring
Anyways I have to go, had a great talk with you hope we meet soon.
Byee!
