

Report on Cyber Safety session (Middle School)

“As the world is increasingly interconnected, everyone shares the responsibility of securing cyberspace.”
— Newton Lee

October marks the global celebration of Cyber Security Awareness Month. The Cyber Congress team(class XI & XII) of DPS Gurgaon conducted a special session on “Cyber Safety” on 7th & 8th October 2024 in the Middle wing (classes VI- VIII). The cyber congress members delivered a presentation to the students highlighting the significance of cyber safety. They provided valuable insights into essential do's and don'ts in the digital realm. The session included a thorough discussion of the challenges and risks associated with using social networking sites, equipping students with the knowledge they need to navigate the online world safely.

The session was highly engaging, with the children actively asking questions and seeking clarification on various topics. It played a crucial role in guiding them on maintaining a positive digital footprint and using the internet responsibly.

The session concluded with a reminder of the school's policy prohibiting students from using social media platforms such as Facebook, Instagram, and Discord. The contact information for the school's Cyber Congress teacher incharges was shared, encouraging students to reach out with any questions or concerns they might have.

Be Safe In The Cyber World

1

Do not interact with strangers or respond to text messages and phone calls from unknown numbers and be cautious of misleading and false information

2

Do not click on unknown links or suspicious requests through emails or text messages regardless of who the sender appears to be.

3

Do not share your passwords with anybody. Avoid using common phrases, words or personal information as passwords

04

Be Safe In The Cyber World

4

Do not make fake accounts, steal anyone's passwords or personal information as it is a cyber offense.

5

Always change the default password set by the school to something unique and tough to Crack.

6

Always research on the source of the content before downloading it. There are malwares which can break into your computer

05

Think Before You Join

- 13 years is the age set by Congress in the Children's Online Privacy Protection Act (COPPA), which prohibits websites from collecting information on children younger than 13 years without parental permission.
- The places you visit and things you say, leave a trail on the Internet that never goes away
- All of this digital communication is called your digital footprint

08

Hazards of Social Networking Sites

Can lead to invasion of privacy

Can lead to addiction

Can lead to frauds and scams

Can lead to cyber bullying

Can lead to misleading information
