

Report on Cyber Safety workshop (Shiksha Kendra)

A special workshop on Cyber Safety was conducted on 29th Sept ,2023 for the Shiksha Kendra students of Classes VI- IX. The session was conducted by two Cyber Security consultants from KPMG. A total of 365 students attended the session.

The session covered the basics of cyber security and created awareness about various topics like having a safe and strong password, digital footprint, cyber bullying, remote access software's, online gaming, Internet trolling, two step authentication and many more privacy settings. The students were informed and apprised about the do's and don'ts in the cyber world. An in-depth was given to the students on the problems associated with being on Social Networking sites.

The session was extremely engaging, and children asked questions and gained clarity on their queries. It helped in guiding the students about having a clean digital footprint and using internet responsibly.
