

## **Report on LEAD Programme Workshop Junior School (2024-25)**

Dates – 20th, 21st, 22<sup>nd</sup>, 24th May 2024 and 3rd August 2024

A workshop was conducted by Skillsphere Education for the students of classes IV and V to train the young participants and expose them to a skill set in four major focus areas namely leadership, entrepreneurship, awareness and diplomacy.

The workshop was activity oriented with well-structured modules and fun games. Novel ice-breaker sessions like ‘Becoming Friends with Myself’ and ‘My Other Living Avatar’ gave students an opportunity to introduce themselves in a unique manner. Students participated in engrossing activities like ‘Number Stamping’, ‘Sell Me a Dream’, ‘Reels for a Cause’ and ‘The Sheep and the Puzzle’ with full enthusiasm. These activities challenged the students and motivated them to give their best to accomplish tasks within a specified timeframe.

On the whole, attending the sessions of the workshop was a wonderful learning experience for the participants. They were trained in public speaking, teamwork, critical thinking and problem-solving. The sessions culminated with detailed reflections and feedback by the resource person related to every session conducted during the workshop.
