

REPORT - Inter House Scratch Competition (Class VI)

'Scratch' is a programming language wherein the world's largest coding community for children with a simple visual interface allows young people to create digital stories, games and animations. It promotes computational thinking, enhances problem solving skills, creative teaching and learning.

Delhi Public School, Gurgaon organised an Inter House Scratch competition for the students of class VI. Students were asked to create an animation using the scratch software, on any one of the topics given to them like 'Cyber Safety', 'Time Travel' and 'E-waste Management.'

It was an enriching experience for the participants as they learnt various tools and techniques of the programming language. Many thought provoking stories were created by the students using the same.

Jhelum House bagged the first position, followed by Chenab House in the second position. The third position award was bagged by Ganges House.
