

SINGAPORE

05 Nights 06 Days

PROGRAM CIRCULAR

We are delighted to offer an exclusive learning program and educational trip to Singapore. The program has been specially designed to provide an intellectually stimulating environment for young learners and introduce them to new directions and ground-breaking technologies in the field of science and environment. At the Singapore Science center, NEWater Centre and several such locations, the learnings will come alive in the form of workshops, demonstrations, hands-on activities to introduce our students to sustainable development.

Educational Highlights of the Program

- Hands on Workshop at Singapore Science Centre on DNA
- Boeing Flight simulation Experience- explore career in Aviation & field of Engineering
- Learn about how water conservation/reclamation is taking place in Singapore and about alternative sources of water
- Learn about Urban Planning & Sustainable Development
- Visit places like Universal studios, Sentosa Island, Jurong Bird Park, Garden by the Bay
