

STATES DAY – CLASS III

‘The beauty of the world lies in the diversity of its people.’

Learning about India’s diversity fosters a sense of unity among the students. Celebrating our differences and the rich diversity of our country brings everyone together. To embrace this spirit of oneness, the students of Class III presented their annual show, ‘My Colourful India’ on Thursday 14th November 2024.

The students contributed wholeheartedly to making this event a grand success. Their dedication and hard work were truly evident in every phase of the preparation. They designed beautiful invitation cards for their parents using ‘Muggulu Art’ and thoroughly enjoyed it as they learned about multiplication through arrays while getting acquainted with a rich Indian art form. The students also showcased their writing skills by drafting the invitation card for their parents. On the day of the event, adorned in colourful attires, the children were a delight to watch. Students welcomed the parents with a traditional dance. A few glimpses of the vibrant cultural diversity of all the states across India were showcased by the children. The highlight of the event was a melodious rendition of 'Mile Sur Mera Tumhara'. It beautifully connected everyone to their national identity and evoked a sense of pride in India’s unity.

The colourful decoration with flowers and vibrant rangolis infused a lively spirit of festivity. The elaborate zonal tableaux displayed artefacts and handicrafts of various regions showcasing the rich cultural heritage of India. A special tableau was made to display the Geographical Indication tags, symbolizing the uniqueness of different regions of India. The parents and the children got a taste of Indian cuisine, aptly called the ‘Taste of India’. Parents were enthralled to receive a gift, ‘Jharokha’, a paper photo frame beautifully decorated by their wards.

States Day celebration was a remarkable celebration of talent and creativity, leaving parents thoroughly impressed and filled with pride. It beautifully reflected the rich cultural heritage of India, reinforcing important values of togetherness and respect for different traditions. Coinciding with Children’s Day the event served as a reminder that education and personal growth are essential for shaping the future of our children.
