

Step by Step Fun with Writing

A webinar on ‘Step by Step Fun with Writing’ was organised by the Delhi Public School Society - Human Resource Development Centre on 8th June 2021. The resource person, Ms Vanita Sehgal, Executive Director, the DPSS - HRD Centre talked about different ways in which writing can be made fun. It was attended by Ms Archana Malik from DPS Gurgaon.

Various interactive activities to build a strong foundation and invoke the interest of the students in writing tasks were discussed to help them understand and get in touch with their creativity. Activities like describing a picture in one word, comparing and contrasting different pictures and listening to different types of music would help them understand emotions using all their senses and develop a keen sense of perception and interpretation. Copious activities for practising sentence construction, content style and vocabulary building were discussed to strengthen their command over grammar. Working collaboratively can encourage students to see writing as a communicative and creative task, thus making it simple and enjoyable.

It was an enriching session, in which the audience learned the technical aspects of good writing to make their classrooms more interactive and a fun place for the students to understand and enjoy.
