

## TERIGRAM TRIP-REPORT

An educational excursion to the TERI Gram Campus was organised for the members of the Redshift, Allotrope, and Pulse clubs on December 21<sup>st</sup>, 2024. A total of 26 students along with two teachers, Ms Rohini A and Ms Moumita Das visited the Campus.

Upon arrival, the group attended an orientation session, gaining insight into the campus's objectives and its commitment to develop sustainable solutions for societal benefit.

The students were then taken on a guided tour of the lush green campus. They visited the nursery, which showcased an array of medicinal plants. They also explored the Biogas plant and vermi-compost pits, learning about their eco-friendly operations and benefits.

Additional highlights included:

- A demonstration of the dehumidifier and greywater purification system utilising the Fragmite plant
- An in-depth explanation of the tissue culture process, along with the lab visit.

The day ended with lunch at the campus. It was an informative and engaging experience that broadened the students' understanding of sustainable practices and innovative technologies.
