

Virtual Tour of Sanchi Stupa and Nalanda

Class VI

A virtual tour was conducted for the students of class VI, between the 18th January and 22nd January 2021, to further enhance their perspective of the rich social and cultural heritage of India.

Buddhism is not just a religion but a way of life. It paves the path of tolerance, non-violence and love, for all to tread. This religion has its roots in the ancient period of Indian history.

The student of Class VI who are presently studying ancient history, virtually visited Sanchi Stupa and Nalanda University and were familiarized with the diverse and the multicultural nature of our country.

The virtual tour was followed by the mentimeter activity to gauge the understanding of the students. Class discussion, spin the wheel and mentimeter activities suggest that the learning objectives were successfully achieved.
