“The great engine of change today is – technology”

Technology goes hand in hand with education. One more Teacher Training session was conducted by Techmint. The webinar explained why educators and management should work towards making technology enabled schools. How to make technology accessible to all and make teaching simpler and more effective. Various points covered in the webinar were :

- Make life tough not easy for children by giving them challenges. Make children employable.
- Children to be empowered to find answers not to get answers digitally.
- Educators life is going to be difficult as we need to keep us upgrading at the pace of technology now.
- Surveillance of data is a problem as large amount of data is flowing through the network of any school.
- Use of all the technological tools not to be imposed on teacher but they should use it as per their requirement.
- Limited not endless content to be provided to students.
- Experimental learning questions to be asked in paper not based on rote learning.
- Educators must emphasis on making students aware of learning outcomes before teaching any topic.
- They gave insights about their app Teachmint that provides education-infrastructure solutions, powering the education ecosystem to deliver inspired learning outcomes. They emphasised on how techmint can be used to create future-ready classrooms with their proprietary classroom technology.
