

ASSEMBLY REPORT CLASS X
MY HAPPINESS MY RESPONSIBILITY

“Happiness is not something readymade. It comes from your own actions.”

-Dalai Lama

Our school assemblies serve as fruitful ground for cultivating essential life skills, where students gain confidence, learn valuable lessons, and work harmoniously as a team. They become well-informed about the latest school and global developments. On the 17th of October 2023, the class X students took center stage to present an assembly on the profound theme, "My Happiness, My Responsibility."

The assembly commenced with a serene prayer and an insightful thought for the day. The thought echoed the wisdom of the Dalai Lama, emphasizing that happiness is not something gifted from the outside but is a product of one's own choices and actions. It encouraged everyone to take ownership of their happiness, underscoring the idea that we have the power to shape a life full of fulfillment and joy through our decisions. The assembly proceeded with updates on national and international news followed by the latest happenings at DPS Gurgaon.

The students skillfully conveyed the theme of the assembly through evocative poems and engaging role-plays, emphasizing the importance of owning one's happiness and recognising the transformative power within. In essence, our choices, attitudes, and actions are the architects of our well-being, urging all to be responsible for their own happiness.
