

Report: Session on Financial Literacy

An enriching session on 'Financial Literacy' was conducted on 8th April 2025, for the students of class X, by IFSA LSR, a student-led finance organisation, at the school auditorium. The session was led by Ms Sanya Rao, Operations Director at IFSA LSR (2nd Year, Mathematics Hons.), Ms Unnati Hirwani, Marketing Director at IFSA LSR (2nd Year, Philosophy Hons.), Ms Vanshika Jain, Associate at IFSA LSR (1st Year, Statistics Hons.), and Ms Aditi Mahajan, Associate at IFSA LSR (1st Year, Economics Hons.).

These young financial enthusiasts guided the students through crucial financial concepts, explaining diverse investment avenues, explaining the principles of profit and loss, and thoughtfully addressing the inherent risks involved. One of the highlights of the session was the engaging discussion around venture capital, where students enthusiastically participated and explored important financial aspects like equity, returns, and the significance of financial literacy in the modern world. The session also addressed the pressing issue of financial scams and provided practical advice on how to avoid fraudulent schemes, empowering students to be vigilant and informed.

The event concluded with a vote of thanks extended to the team from IFSA LSR for their time and efforts. The audience's active participation and keen interest were appreciated, making the session a resounding success in promoting financial awareness among young learners.
